Alonso, J., Mortier, P., Auerbach, R.P., Bruffaerts, R., Vilagut, G., Cuijpers, P., Demyttenaere, K., Ebert, D., Ennis, E., Gutierrez-Garcia, R.A., Green, J.G., Hasking, P., Lochner, C., Nock, M.K., Pinder-Amaker, S., Sampson, N.A., Zaslavsky, A.M., Kessler, R.C., WHO WMH-ICS Collaborators. (2018). Severe role impairment associated with mental disorders: Results of the WHO World Mental Health Surveys International College Student Project. *Depression and Anxiety*, 35(9):802-814.

The description of AUDIT scoring in Methods section of this paper (p.804) was incorrectly described as:

In line with recommendation (Babor, Higgins-Biddle, Saunders,& Monteiro, 2001), we defined alcohol use disorder (abuse or dependence) in the AUDIT as having a total score of 8+ and a score of 4+ on the AUDIT dependence score.

This should read:

In line with recommendation (Babor, Higgins-Biddle, Saunders,& Monteiro, 2001), we defined alcohol use disorder (abuse or dependence) in the AUDIT as having a **total score of 16+ or a score 8-15 with 4+** on the AUDIT dependence score.

There was no error in the reported results.
